

**Wheatland School District
Board Insurance Increase to Cap**

Board Insurance Historical Data

There was an agreement back in 2012 that when employees received an ongoing salary increase that the District would look at the Board Insurance Cap and discuss increasing it at the same percentage. The District increased the Board Cap by \$122/month in July of 2014 based on the increases for staff. That was the last time the insurance was increased.

This year, 2021/2022, employees are receiving a 5% increase plus additional Pandemic Pay of \$1500. Last year employees received a Pandemic Pay of \$2500.

It is time to increase the Board Insurance cap as we are giving a substantial increase of all employees.

Proposal for 2021/2022

Increase the Insurance Cap for the Board of Education by \$83.33/month which equals \$1000/year.
