REPORT/PROPOSAL

The District will partner with Wheatland PD to place strategic cameras in town to help with who is coming and going into our town and our school sites. The District will be using the DOJ Safety Grant to fund the first two years of this program. The cost for all equipment, installation and fees will be \$33,459 for the two years. After the initial two years the cost will be \$15,500 annually. This will be a cost to the Wheatland Police Dept and the City. We will be adding two cameras and the Yuba County Sheriff's office will be adding one additional camera.
