

## Billy Collins

### Report of Incident

Date: October 29, 2025

#### Incident:

Shortly after school began on October 29th , two students came to the office and reported that a student had possessed an air soft gun on the bus that morning and had hidden it before I called him to the office. They stated that the gun was now in the possession of **Billy Collins**. The students shared with me that Billy was in line for Ms. Taylors 1st period class. I immediately responded to the information by going to the classroom and locating Billy while he was in line for class.

Once I located Billy, I confiscated his backpack and asked Billy if he was holding a weapon. He confirmed that he was and identified its location in his backpack. Upon searching, the **Air Soft gun** was found exactly where he indicated. Billy further explained that two other students had helped hide the weapon earlier that morning.

All students involved have provided written statements regarding their participation.

An attempt to contact mom and dad was made immediately and parents were informed that Wheatland PD would be responding to interview Billy about his involvement. After interviewing the student with his parents present, Wheatland PD informed me that they would not be completing a report as this was a school incident and not a crime due to Billy not brandishing the weapon or making any threats.

I explained the situation to parents following the police interview and suspended Billy for 5 days pending possible expulsion.

#### Recommendation:

Based on the nature of the incident and the confirmed possession of a weapon on campus, my recommendation is that **Billy be expelled for the 2025–2026 school year with that expulsion being put on hold unless Billy violates any California Ed. Code 48900 leading to a suspension for the remainder of the 2025-2026 school year.**

Justin Guzman

Vice Principal
