Wheatland Elementary School District E-Rate Cabling 2024-2025 (YR27)

Lone Tree Elementary School – 470# 240002128

KST Change Order #02: Additional Fiber and Installation Labor

K S Telecom, Inc. (KST) is providing a cost for the changes that occurred during the installation of the new single-mode fiber optic cable at Lone Tree Elementary.

KST install approximately 1,300' of additional 12-strand & 400' of additional 48-strand single-mode fiber optic cable to facilitate all existing IDF locations. This amount far exceeded the lengths that were initially provided to vendors by the district in the scope of work overview.

KST installed (1) 12-strand SM fiber optic cable between the old office IDF in the copy room and the new office IDF in the chair room. **KST** initially installed (1) fiber jumper and (1) Cat6A copper jumper as required in the scope of work. However, it was determined that multiple jumpers would be needed to facilitate all IDF's on the upper campus due to the current switch configuration being used. (**KST only charged for the labor used during this specific change.**)

Per Addendum 1

- All contractors were directed to use a 4,500' of 12-strand SM fiber standard for bid comparison purposes.
- The district called for just (1) fiber patch cord and (1) Cat6A jumper to tie the new office IDF location to the old IDF location.

These changes include:

- Costs of labor and materials used for exceeding the 4,500' of single-mode fiber optic cable originally quoted for this project.
- Cost of labor only for the 12-strand fiber optic cable added between the new and old office IDF locations.

List of materials for change order

- 1300'- Panduit (PZWMC12W) 12-Strand SM fiber
- 400'- Panduit (FSNP948Y) 48-Strand SM Fiber needed at splice point due to congested pathways.
- Lot Labor

The change order #2 price for this project is:.....\$18,911.00

The offered discount to the district:.....\$2,000.00

The total change order #2 price for this project is:.....\$16,911.00

Warranty Information

K S TELECOM, Inc. warrants all materials and craftsmanship to be free from defects for a ***period of one year*** from the date of substantial completion. **KST** shall fix or replace, at its sole discretion, all defective materials and/or craftsmanship, at no charge to the customer, excluding damage because of negligence, abuse, misuse, and/or acts of God. Normal and customary service charges shall apply for the diagnosis of repair or non-warranted defects. Any changes to LAN/WAN configuration or programming after acceptance is the responsibility of the customer.

KST is a Panduit Certified Installer (PCI) and will be providing a 15-year extended manufacturer's warranty upon completion of the project for the new cabling installed.

Please call or email if you have questions.

Sincerely,

Gary Ramsey
