Google Services Agreement

- Wheatland School District (WSD) utilizes Google Workspace for Education to support teaching and learning by providing students access to essential tools such as Google Drive, Docs, Classroom, Meet, and Gmail (internal use only). These “Core Services” are considered critical for student academic success and are provided in a secure, closed environment accessible only within WSD. Google is contractually obligated to comply with all applicable federal and state student data privacy laws, including the Family Educational Rights and Privacy Act (FERPA).
- In addition to the Core Services, WSD may enable access to certain “Additional Services” offered by Google, such as YouTube, Google Maps, Google Translate, and Google Books. These services offer extended learning opportunities and enhance classroom instruction. However, due to Google’s Terms of Service, parental consent is required for students under the age of 18 to use these Additional Services. Consent is considered valid while the student is enrolled in WSD and may be withdrawn at any time by notifying the school office.
- By reading and acknowledging the Student Acceptable Use Policy, parents/guardians give permission for their student to access both the Core and Additional Google Services through their WSD-provided Google Workspace for Education account. If a parent/guardian does not wish to provide consent for the Additional Services, they must inform the school office.
